

Experience

TopCashback: Frontend UI Developer & Web Accessibility Lead February 2022 to Present

- The main frontend development and web accessibility Specialist within TopCashback's UX team.
- Main duties involve development work on React/Next.js apps, using the following technologies:
 - Node.js, Tailwind, TypeScript, HTML, CSS/SCSS, Vite/Webpack.
- Made significant impact, leading the frontend development of many successful major projects over the last 4 years.
- Frequent participation in code reviews, pair programming activities and mentorship of other developers/designers.
- Solid experience with Jest unit/regression tests successfully following RGR principle for test-driven development.
- Extensive UI/UX design background with a design eye for translating mockups into pixel-perfect and fully-functional prototypes.
- Frequent collaboration with various teams and stakeholders through working in Agile (Scrum).
- Extensive version control experience using Git/GitHub/GitLab.
- Alongside my development duties, responsible for leading TopCashback's web accessibility initiatives:
 - Example duties include: Compliance with WCAG 2.2 and European Accessibility Act, Auditing/Testing, Staff Training, Advising on Policy, User Research and Testing.
- Achieved promotion in May 2025 as recognition of my initiative and leadership, making Web Accessibility a formal part of my role.

Ebuyer: UI Developer/Designer May 2021 to February 2022

- Hybrid role between Frontend Developer and UI Designer.
- Massively improved my UI design skills and usability principles knowledge, winning in-house design award.
- Developed solid knowledge of best practice and performant design/development, with SEO and accessibility prioritised.
- Greatly increased my software development competence and general problem solving skills during my time at Ebuyer.

TopCashback: UX Designer (12-month University Internship) July 2019 to September 2020

- Spent 12 months working within UX team as UX Designer, where I kick-started my love for user-centred design.
- Developed a wealth of experience in UX/usability principles, accessibility patterns and user research/testing.

Education

University of Huddersfield | ICT Undergraduate Degree – First Class (A) Grade Graduated May 2021

- Achieved a 84% (A) grade on my Dissertation: UX review, testing and redesign of the NHS Test & Trace app.
- Gained lots of knowledge in many areas across Web Development and Design, where my passion for UX and Frontend Dev began.

Barnsley College | A Levels Completed June 2017

- ICT (A grade), History (B grade), Biology (D grade).
